* Levies different rates in parts of jurisdiction; rate listed is for largest share of taxpayers.

NOTE: Because Portland Public Schools does not collect the full levy in urban renewal areas, the effective districtwide rate (and the one taxpayers will see on their bills) is lower: \$5.86 per \$1,000. Other school districts, such as Tigard-Tualatin, Hillsboro, West Linn-Wilsonville, also have their effective rates reduced by urban renewal. We have not attempted to derive those numbers.
